DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on May 20, 2005 has been entered. Claims 65-73 are pending.
2. The previous rejection is withdrawn pursuant to Applicant's May 20, 2005 Amendment and REMARKS.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 65-73 are rejected under 35 U.S.C. 102(b) as being anticipated by Ray et al., US 6,018,722.

Ray discloses a real-time, e.g. col. 6, line 42, computer based system for trading financial instruments comprising a brokerage interface, e.g. 235, a server, e.g. 215, a mainframe computer, e.g. 245, a trading system, e.g. 230, a financial advisor computer, e.g. 200. It is noted that Applicant's claim language is replete with intended use claim language, e.g. for trading financial instruments, for (1) transmitting . . . orders. Intended use claim language is given patentable weight. However, it is less than that of positively recited claim language, e.g. a computer based system. Nonetheless, Ray is deemed able to carry out Applicant's intended use claim language. Applicant's May 20, 2005 REMARKS have been reviewed, but are moot in light of the new ground of rejection.

5. Further pertinent references of interest are noted on the attached PTO-892.
